Dear Colleagues

It gives us immense pleasure to invite you to the annual conference of Ruby Hall Cancer Center `Current Trends in Oncology- Breast Chapter` on 16th and 17th Jan 2016. It is a 2 day event marked to highlight the scientific advances made in the treatment of breast cancer. Newer techniques in early diagnosis, advancements in treatment, cosmetically oriented surgeries, innovations in systemic therapy and sophisticated radiotherapy techniques have dramatically changed the management of breast cancer today. Furthermore, individualized cancer treatment using molecular tests and more targeted therapies are evolving rapidly leading to an exciting avenue of genomic medicine. This conference aims to address all these issues through a wide variety of panel discussions, invited lectures from experts in the field, live surgical workshop on oncoplastic breast surgery, radiology workshop, video sessions and more. We also invite abstracts of proffered papers on diagnosis and treatment of breast cancer by PG students and trainees which can be presented during the conference.

We look forward to your active participation in this conference.

Welcome to Pune

**Dr Minish Jain / Dr Anupama Mane / Dr Sanjay Deshmukh**
